

KoskiPan

Uncoated standard chipboard

Koskisen chipboards are made from genuine wood. Wood accounts for 90 per cent of the boards. Clean raw material ensures that our boards are of high quality and easy to work.

KoskiPan is uncoated standard chipboard. The boards can be sawn, drilled and cut with any conventional woodworking tools.

The boards can be used to create a range of durable practical structures rapidly and inexpensively. The strength grades of KoskiPan are P1, P2, P4, P5 and P6. The uniform compact surface is an excellent base for different type of coatings.

KoskiPan is suitable especially for floors, internal walls and ceilings, fixtures, kitchens, bathrooms, laminate worktops, doors, panels, exhibition, shops and other special furniture and P5 quality for dry places outdoors.

ECO-FRIENDLY

LOW EMISSION

EASY MACHINING

EASY TO USE

ACOUSTIC

MULTI USE

➤ Standard board with many possibilities

➤ Easy to work

➤ Wide range of sizes

➤ Light surface colour

➤ The strength of the board is constant in every direction

➤ Good sound-insulating properties

➤ Environmentally friendly

➤ CARB/TSCA for grades P1,P2, P2Mr, P4 & P6

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen chipboard products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Koskisen chipboard is made from our own sawmill's sawdust and contains 85% real wood. Our professional quality control ensures that Koskisen chipboard is always pure and does not include sand or other impurities. Pure and high-quality chipboard is easy to machine and it doesn't damage saw blades.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
