Description

With Fonda, TAL develops a sleek and simple wall recessed fixture that offers the ideal solution for indirect staircase or hall lighting. The subtle square device measures only 8cm x 8cm and therefore fits perfectly on a hollow wall box. In this way, the fixture can be installed in no time with direct connection to the mains voltage and a long life is guaranteed by the use of LEDs of the latest generation, which are also very energy efficient. Fonda is an extremely reliable fixture that guarantees sophisticated and safe orientation lighting. The fixtures are available in different finishes including textured white or black and brushed aluminium.
